

SAFETY DATA SHEET

Surgical Steel Body Jewelry

1 IDENTIFICATION OF MATERIAL

Product Name	Surgical Steel Body Jewelry
Product Use	Body Piercing
Manufacturer	Salamander Jewelry Company Limited
Address	128/1 Moo 7, Soi Wat Nakhon Chuenchum Phuttamonthon Sai 4 Rd. Tambon Kratumlom, Ampur Sampran, Nakhon Pathom 73220, Thailand.
Phone Number	(66)-2814-4455

2 IDENTIFICATION OF HAZARDS

EU Main Hazards	Not classified as hazardous.
Carcinogenicity	Not considered carcinogenic by IARC, NTP, and OSHA.
Health Effects – Skin	Sharp edges on solid products may cause cuts or lacerations. In case skin sensitive may cause irritation.

Specific Health Effects

Chromium: The toxicity of Chromium is dependent on its' oxidation state. Chromium metal is relatively nontoxic. If metal is heated to high temperatures, as in welding, fumes produced may be toxic to the lungs. Under high temperatures, hexavalent chromium may be produced. If in insoluble form, it is designated a confirmed human carcinogen. Other health effects include nasal irritation and possible kidney and liver damage. Chromite dust may also cause skin ulceration, dermatitis and allergic skin reactions.

Copper: May irritate the upper respiratory tract. May be characterized by a metallic or sweet taste. May also cause metal fume fever.

Iron Oxide: Repeated inhalation of iron oxide fume or dust causes benign pneumoconiosis (siderosis), but generally does not cause symptoms in the exposed person.

Manganese: Acute effects include skin and eye irritation and metal fume fever. Chronic exposure may lead to central nervous system symptoms such as headache, changes in motor activity and psychological disturbances.

Specific Health Effects (continued)

Molybdenum: Insoluble compounds of Molybdenum have a low order of toxicity. Molybdenum trioxide is an irritant to the eyes and mucous membranes.

Nickel: Known to cause contact dermatitis and a respiratory irritant. Nickel refining and specific compounds are considered respiratory carcinogens to humans. The International Agency for Research on Cancer lists elemental nickel as a possible 2B carcinogenic to humans. The National Toxicological Program(NTP) lists Nickel as reasonably anticipated to be carcinogenic from studies in experimental animals. The American Conference of Governmental Industrial Hygienists recommends that nickel compounds be differentiated according to solubility for their carcinogenic effects.

3 COMPOSITION/INFORMATION ON INGREDIENTS

Component Name	CAS #	Concentration	Classification	R Phrases
Iron	7439-89-6	> 45 %	None	None
Chromium	7440-47-3	16 - 26 %	None	None
Copper	7440-50-8	0 - 0.5 %	None	None
Manganese	7439-96-5	0.5 - 1 %	None	None
Molybdenum	7439-98-7	2 - 3 %	None	None
Nickel	7440-02-0	10 - 14 %	T	R40, R43, R48/23

4 FIRST- AID MEASURES

First Aid – Skin Seek medical attention

5 FIRE - FIGHTING MEASURES : NO SPECIFIC REQUIREMENTS

6 ACCIDENTAL RELEASE MEASURES

This product does not pose a hazard to the environment in the as-shipped form

7 HANDLING AND STORAGE

Keep away from acids and oxidizers.

9 TOXICOLOGY INFORMATION: SEE SECTION 2 (IDENTIFICATION OF HAZARDS)

10 STABILITY AND REACTIVITY

Stability Stable under normal conditions.

Materials to Avoid Strong acids

11 PHYSICAL AND CHEMICAL PROPERTIES

Physical State Solid

Odor None

Color Gray

Melting Point (°F) 2400-2800

Specific Gravity No specific requirements

Flash Point (°F) Not flammable

Solubility in Water Insoluble

12 ECOLOGICAL INFORMATION : NO SPECIFIC REQUIREMENTS

13 DISPOSAL CONSIDERATIONS

Recycling of all metallic byproducts as scrap is strongly encouraged. If byproducts need to be treated and/or disposed of as wastes, hazardous waste characterizations must be performed prior to treating and/or disposing. Contact appropriate parties to ensure compliance with all federal, state and local rules and regulations related to waste treatment and disposal.

14 TRANSPORT INFORMATION: NO SPECIFIC REQUIREMENTS

15 REGULATORY INFORMATION

R40: Limited evidence of a carcinogenic effect.

R43: May cause sensitization by skin contact.

R48/23: Toxic: Danger of serious damage to health by prolonged exposure through inhalation.

16 OTHER INFORMATION

This information is correct to the best of our knowledge and belief at the date of publication

however no guarantee is made to its accuracy.
